## **DETAILED ACTION**

### ***Status of Claims***

Claims 1-17 are pending in the application.

Receipt is acknowledged of amendment / response filed on May 10, 2004 and that has been entered.

Claims 6-15 are withdrawn from further consideration pursuant to 37 C.F.R. 1.142 (b) as being drawn to a non-elected subject matter.

### ***Information Disclosure Statement***

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 09/09/02 and 11/25/02, which has been entered in the file.

### ***Response to Election/Restriction***

In response to the restriction requirement, Applicants have elected Group I, which includes claims 1-5, 16 and 17 drawn to a preparation of the endogenous Ah receptor ligand is acknowledged.

Because Applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election **without** traverse (MPEP § 818.03(a)). Therefore, the requirement for restriction is still deemed proper and is therefore made FINAL.

Applicants preserve their right to file a divisional on the non-elected subject matter.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claim in the subject matter, which the applicant regards as his invention.

Art Unit: 1626

Claims 1-5 and 16-17, are rejected under 35 USC § 112 second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-5 and 16-17 are rejected as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The steps leading to the preparation and isolating of the endogenous Ah receptor ligand from a reaction mixture are not recited in the claims. It is suggested that the essential step(s) of the preparing and isolating of the endogenous Ah receptor ligand (as described in non-elected inventions, such as in claim 8), be incorporated in claim 1 in order to overcome the rejection or to amend the claims with in the context and scope of the claims.
